

CYSE 270: Linux System for Cybersecurity

Assignment: Lab 3 – VI Editor

Goal

- Practice using the vi editor.

Notes:

- Remember the “**modes**” in the vi editor.
- You may use the “**Escape**” key to return to command mode if you get confused and need to start over.

Exercises

1. Create a file using the vi editor.
2. Navigate, copy, paste, and edit within the vi editor.

Submission Instructions

- Take screenshots for each step you perform and write down the correct command corresponding to each step number. Submit this in a Word or PDF file.
- Multiple commands that fit into a single screenshot can be submitted together

Task: vi Practice on Ubuntu / Kali Linux (20 * 5 = 100 points)

Open the terminal in your VM, then complete the following tasks. **Please take the screenshots of all the necessary commands that you execute for each step and submit the screenshots with their step number in a word or pdf file.**

NOTE: You may write the correct vi editor commands, if screenshot is not applicable. Please see the note added to some steps below.

1. Copy the file `/usr/share/doc/zstd/copyright` to your home directory. **NOTE:** alternatively, you can use any text file that is large if you cannot find this file on yours.
For example: If you are not able to locate copyright file in your VM, you may copy `/etc/passwd` file to your home directory to work for lab-3.]

```
(kali㉿kali)-[~]
$ cp /usr/share/doc/zstd/copyright /home/kali

(kali㉿kali)-[~]
$ ls
'~' charm.txt copyright Desktop Documents Downloads example.txt
```

2. Perform a **long list** in your current directory using the correct command. 3. Open the file **copyright** (or any file that is large enough with multiple lines of text) in a vi-editor using **vi** command.

```
(kali㉿kali)-[~]
$ ls -l
total 64
-rw-rw-r-- 1 kali kali      807 Sep 16 16:04 '~'
-rw-rw-r-- 1 kali kali        0 Sep 23 15:51 charm.txt
-rw-r--r-- 1 kali kali    5332 Sep 30 13:27 copyright
drwxr-xr-x 2 kali kali    4096 Sep 16 14:59 Desktop
drwxr-xr-x 2 kali kali    4096 Sep 16 14:59 Documents
drwxr-xr-x 2 kali kali    4096 Sep 16 14:59 Downloads
-rw-r--r-- 1 kali kali      807 Sep 28 15:10 example.txt
-rw-rw-r-- 1 kali kali       96 Sep 16 16:08 incident.conf
-rw-rw-r-- 1 kali kali        0 Sep 16 16:06 man
drwxr-xr-x 2 kali kali    4096 Sep 16 14:59 Music

```

5. Return to the command mode (using ESC key).
6. Open a new line **below the current line** using correct command (please refer to slides with the list of commands used in vi editor)

- Enter command mode and then enter “o”

7. Return to the command mode. (Press escape key)
8. Use command to Insert “******XXXX******” **five** times.

- While in command mode use “yy” to copy current line and then “p” to paste after currentline

```

```

9. Use command to return the **top** of the file. [Please write the correct command for this step] while in command mode enter “gg”
10. **Move forward three sentences.** [Please write the correct command for this step with step number] the close parenthesis “)” makes the cursor jump one sentence so by adding “3” will make it just or forward three parenthesis.
11. Move forward **four words.** [Please write the correct command for this step] 12. for the word **example** or any word existing in the document that you are using for lab-3. [Please take the screenshot for this step to submit] Search **Looking into the slide the proper command for this is “4w”**

```
1. The origin of this Software must not be misrepresented; you must not
claim that you wrote the original software. If you use this software
in a product, an acknowledgement in the product documentation would be
appreciated but is not required.
2. Altered source versions must be plainly marked as such, and must not be
misrepresented as being the original software.
3. This notice may not be removed or altered from any source distribution.
```

13. Continue to the next occurrence of the search term **example**. [Please take the screenshot for this step to submit] by entering “*” it goes to the next match of the word where the cursor is.

```
1. The origin of this software must not be misrepresented; you must not
claim that you wrote the original Software. If you use this software
