

Omar A. Vardi

CYSE270 - Lab 1

Linux Commands:

- echo - used to print strings or texts
- date - shows today's date down to the millisecond
- ls - displays files and directories
- Pwd - prints your current working directory.

```
kali@kali: ~  
$ echo Omar A Vardi  
Omar A Vardi  
$ date  
Wed Aug 26 05:52:58 PM EDT 2026  
$ ls  
Desktop  Documents  Downloads  Music  Pictures  Projects  Public  Templates  Videos  
$ pwd  
/home/kali  
$
```

The screenshot shows a Kali Linux terminal window with a dark blue background and a faint Kali Linux logo. The terminal displays the results of four commands: 'echo Omar A Vardi' outputs 'Omar A Vardi', 'date' outputs 'Wed Aug 26 05:52:58 PM EDT 2026', 'ls' lists the contents of the home directory, and 'pwd' outputs '/home/kali'. The terminal window has a menu bar with 'Session', 'Actions', 'Edit', 'View', and 'Help'. The top status bar shows 'kali@kali: ~' and the system clock '18:04'.
